

PART TWO: CUT PAPER ALPHABET GUIDE, with LOWERCASE letters, using a rectangle to start. (But please know that every letter does NOT have to occupy the same sized space.) Use your eyes and scissors to cut the letters: resist pencil pre-sketching! Experiment! You will amaze yourself with what you can cut!

Descenders go below the baseline like a "g". Play with the length of the descender?
g · j · p · q · y

Ascenders go above the baseline, like "t" and "h". Play with the tall part? Start with a different sized rectangle?
b · d · f · h · k · l · t
